## "A Yard of Chrysanthemums."

The Poets, Whittier, Tennyson, Bryant  
Longfellow, Emerson.

A YARD OF CHRYSANTHEMUMS is the richest and most artistic picture ever produced. It is a reproduction, in twelve colors, of a water color painting. Its size is 8x36 inches. The pictures of the five poets named are about 6x8 inches in size, each a separate and independent picture, highly artistic, and suitable for framing. All these pictures are made by us, and nothing similar can be purchased at any price. You get in each a select and rare picture, yet we send them FREE OF ANY CHARGE to introduce

## THE HOME-MAKER MAGAZINE

To New Readers.

THE HOME-MAKER is the ordinary magazine size, and bound in the regular magazine way. The departments of THE HOME MAKER are:

- Literary, Decorative Home Art,
- Topics of the Time,
- Notes of Various Interest,
- Correspondence and Queries,
- The Domestic Club, Etc., Etc.

Among our subscribers are such people as Mrs. Potter Palmer, Ex U. S. President R. B. Hayes, Judge Noah Davis, Mrs. Charlotte Emerson Brown, and Mrs. Henry Ward Beecher—all paid subscribers.

We guarantee the HOME-MAKER MAGAZINE to rank with the leading \$3.00 and \$4.00 publications in literary merit and every respect.

Why should monthly magazines exact the same price now as they did twenty years ago? Yet some of the old-fashioned publications are doing this. The daily newspapers reduced their prices long ago. We are demonstrating that a high-class magazine can be produced successfully at \$2.00 a year—20 cents a copy—and to introduce this five-year old magazine to new readers, we are going to give away all the above pictures, FREE of charge, to every person.

### SEE OFFER BELOW.

All the above Pictures, including the splendid Christmas number, with more than 100 magnificent illustrations, will be SENT FREE

to every person sending \$1.00 for a six-months' subscription, beginning with any month.

## The Popular Science Monthly for 1893.

EVIDENCE of the increasing influence of science in all fields of human activity is apparent on every hand. The farmer is looking to it for better methods in cultivation and the raising of stock. The manufacturer asks of it cheapened processes to meet ever sharper competition. The economist seeks in it a firm basis for his policy. The doctor and sanitarian call upon it for a more perfect equipment for their struggles with disease. The educator consults it with reference to more rational methods of instruction. Literature, politics, and the Church are among its most interested listeners since it is testing their respective claims in a way that compels attention.

THE POPULAR SCIENCE MONTHLY has long borne a leading part in making the general reader acquainted with this great and rapidly-growing department of human knowledge. It has aimed to do this with perfect fairness, and with all the tolerance of earnest beliefs that is consistent with fearless adherence to the truth, and the same attitude will be maintained in the future.

### SCIENCE AT THE WORLD'S FAIR.

Among the special features of this standard magazine for the coming year will be accounts by competent specialists of the present standing of the several departments of science, as exhibited at the Columbian Exhibition at Chicago. The marvels of Electricity to be displayed there will be described and explained by Mr. CHARLES M. LUNGRÉN. Large provision has been made for the exhibit of Anthropology, and this department will be completely treated by Prof. FREDERICK STARR, of the Chicago University. Mr. BENJAMIN RICE will treat of the applications of science in the vast interest of Transportation, and the scope and significance of the exhibits in other departments will be set forth by able hands.

### THE DEVELOPMENT OF AMERICAN INDUSTRIES SINCE COLUMBUS.

The splendid series of illustrated articles under the above title will be continued, and probably brought to a close in the coming year. Among the subjects that remain to be treated are Glass, Silk, Paper, Agriculture, Machinery and Ship building.

Miscellaneous contributions may be expected from the able writers who have been in the habit of addressing the readers of the MONTHLY.

JOHN D. FOUQUET, Architect.

New York, February 25, 1889.

Messrs. J. B. KING & CO., 24 State St., New York City.

Gentlemen.—In reply to yours of yesterday, I would say that we have given your Windsor Cement Plaster a fair trial, first on the Niagara Falls Passenger Station, and afterwards on the R. R. Men's Building at East Buffalo, and with such favorable results that we have specified it to be used for the proposed new station about to be erected at Lockport, and also on walls of new Lunch Room and Restaurant at Rochester. Its strength and rapid working make it superior to any plaster heretofore used by me for station buildings. The jarring of passing trains is a severe test to plastering, and breaks the clink and cracks ordinary plaster, and instead of using plaster we generally resort to the more expensive method of ceiling with wood, which is not as cleanly, and in many cases not as desirable as plaster, which renders the building more light and cheerful and warmer in winter. I looked into the matter thoroughly and found favorable reports from practical plasterers using it in the city on expensive buildings before I would take the risk of using a new material, which I knew only by samples left in office, and am thus far well pleased with results, and expect to continue using it on future work.

Yours very truly,

(Signed)

JOHN D. FOUQUET, Architect.

Since writing the above, we have continued to use the above described material with entire satisfaction, and intend using it at Department Shops and several Passenger Stations now under contract.

JOHN D. FOUQUET, Architect.

## THE BIRGE WALL-PAPERS

For the coming season are now ready. More than sixty thousand dollars have been expended in producing their new collection. In designing, coloring, stock, and printing, no economy has been thought of, the whole intent being to produce for the World's Fair year the most complete collection ever placed on the market. To show, in fact, the progress of four hundred years. That the humblest mechanic can to-day decorate his apartments with effects that, when Columbus sailed, could only adorn the palace of a king.

Everything that art, that money, and that skill could do has been lavished on this line. If you have a house or a room to decorate, ask for the BIRGE papers, and take no others.

The "Wall Paper Trust" are attempting to boycott these goods, and possibly your decorator may be one of the dealers who has pledged himself not to handle the BIRGE patterns. Then write to BIRGE & SONS direct; they will see that samples are shown you, and that only reasonable prices are asked.
